

K-Love Radio

K-Love Radio serves my family in many ways. We hear about local events in our church and other churches through the K-love calendar. We hear about Christian concert events and Christian sponsored events that are happening in our area over the K-Love airwaves. We have a music station that plays family friendly/kid friendly programming and not all of the garbage you hear on others stations.

I am writing because K-Love provides a family friendly listening opportunity and would be greatly missed by my family. If their station should be displaced by a LPFM providing other programming, my family and my local community would miss the many songs and messages of hope that K-Love provides daily. Many lives are touched locally by the music, the messages, and the ministry provided by K-Love radio in Hampton Roads.

The service provided by K-Love Radio is important for Hampton Roads as it provides families a place to tune their radio dial to and find messages of hope and lessons of love. The Hampton Roads public has a radio station that provides helpful ministries for individuals and families with many different needs. K-Love serves many needs and helps many different types of people with the music, messages and ministry they provide.
